

THE OEM Alternative®

DON'T LET BUDGET CUTS AND REDUCED IT SPEND IMPACT YOUR DATA CENTER

Axiom is uniquely positioned to help your business during this unprecedented year and into the future

While many vendors are seeing COVID-19 negatively impact 2020/2021 outlook, Axiom is your trusted partner during these challenging times to keep your business on track and under budget. As your teams transition to a remote workforce, added stress is put on your data center and network experience. Axiom has you covered with solutions to keep your new work environment up and running so you can maintain a high level of efficiency and productivity.

Extend the Life of Your Data Center Hardware with AMS

For customers that opted to keep legacy hardware out of support, this is a critical time for a review. With a constraint on supply and supply chain, break/fix can lead to higher costs and longer time to resolution. Third-party maintenance with AMS can ensure your business is not further impacted by downtime, while taking advantage of swift response times. Learn more: www.axiomupgrades.com/ams

Maximize Efficiencies with Cost Effective Solutions

With a remote workforce, it's now more important than ever to ensure seamless connectivity and maximize efficiencies. Whether your team needs to upgrade servers, add memory or enhance speeds, Axiom can help you reduce operational expenses during these difficult times by consolidating support and decreasing support costs by as much as 70%. Become More Productive, Wherever You're Working

With home and remote work environments, notebook and desktop systems will need to keep pace. Axiom provides support and upgrades for memory and storage to help stretch your IT budget.

Upgrade with Confidence

Axiom OEM equivalent upgrades ensure your system is able to grow and deliver based on business needs. With strong legacy support and creative programs, we can help businesses stretch IT budgets to deliver results.

**These are only a few of the ways that Axiom can help your business.
